

spread rapidly among the strikers, and there were many threats of reprisals.

Relief for Sufferers.
Denver, Col., December 25.—A contribution of \$5,000 from the Western Federation of Miners of Colorado, for the relief of relatives of the victims of last night's strike.

ASKS FEDERAL INQUIRY

Moyer Wants Calumet Tragedy Investigated by Government.
Washington, December 25.—Secretary of Labor Wilson received a telegram today from Charles H. Moyer, president of the Western Federation of Miners, who is directing the copper strike at Calumet and vicinity, demanding Federal investigation of the Christmas Eve tragedy, that cost four lives there. The telegram, dated last night, was as follows:

"While striking miners, with their wives and little ones, were arranging for a Christmas tree in a hall at Calumet, Mich., to-night the door was opened by a person, who drove a false alarm of fire. In their effort to get out of the hall seventy-seven people lost their lives. Circumstances surrounding this terrible accident demand immediate investigation by the government. I have written the President. Will you see him and urge immediate action?"

Secretary Wilson said he would communicate with the President as soon as possible, but that he did not know whether the government would have jurisdiction in such a case. Pending a decision on the question of jurisdiction, he said he would not reply to the Moyer telegram.

The question of whether the government has jurisdiction to make the investigation requested by Mr. Moyer, said Secretary Wilson, has not yet been decided. It is not yet decided whether it is the duty of the government to investigate what, if any, action will be taken by the Federal authorities.

COMET NEARING EARTH: MAY SOON BE VISIBLE

Washington, December 25.—As it is apparently drawing nearer the earth, it is probable that Delavan's comet, the latest stranger in the sky, soon may become visible to the naked eye. Last night, however, it was only visible through the powerful five-inch finder of the great telescope at the Naval Observatory.

The comet was discovered by Paul T. Delavan, of the Argentine Naval Observatory, at La Plata, Professor Asaph Hall, Chief of the U. S. Naval Observatory, December 13, was the first to observe it in this country. "According to the telegram from South America," Professor Hall said today, "a large telescope was necessary for observations there, meaning probably the seven-inch reflector of the La Plata Observatory. The comet has a bright nucleus, and on the night of December 15 it showed a fairly bright nucleus, surrounded by nebulosity, and appeared to have a faint tail following."

"It was not visible in the two-and-one-half-inch finder." "The night of December 22 there was considerable haze, so that no tail was seen." Amateur astronomers with small glasses may seek the comet, Professor Hall said, by using the star Zeta Eridani for a starting point. "The comet is approximately fourteen and one-half minutes of time west of this star," he explained, "and north of it 2 1/2 degrees. It is moving west about four seconds of time per hour, north about five and one-fourth minutes, but there has not been enough motion so far to compute an orbit."

This is the sixth comet discovered

JUST A SUGGESTION.

If your hat doesn't fit just right this morning, here are New Derbies made to sell at \$4 and \$5, that a slight imperfection has brought your way at just \$1.90.

Never was such a hat value!

C. H. Derry

This year, the one that has attracted the most attention was found by New-July September 3. This was a very small body, and showed only the slightest trace of nebulosity, its appearance being rather that of an asteroid.

EMBARGO ON THE POTATO WILL NOT AFFECT SUPPLY

Washington, December 25.—One thing the Department of Agriculture wants to impress on the public in connection with the present potato agitation is that there is no shortage of the American potato crop, nor is there likely to be. Considerable apprehension was indicated at the hearing at the department last week when an embargo against all foreign-grown potatoes was discussed. The order, as finally issued, was just what was announced in the Star last Sunday, namely, continuing the present potato quarantine, which excludes potatoes from regions infected with the potato wart and the powdery scab. This puts the embargo on all of Continental Europe, the British Isles and most of Canada, including the islands of Alaska, and St. Pierre.

There was a good deal of interest among the potato importers in connection with the embargo, but the department says it is a matter of much more interest to the foreign potato growers than to the American public. The reason is that the potato crop that year was 31,000,000 bushels, while the importations were less than 20,000,000 bushels.

ALLEGED "COUNT" HELD FOR ROBBERY

After Arraignment Put Under \$5,000 Bail for Examination on Tuesday.

[Special to The Times-Dispatch.] New York, December 25.—Twirling his gold eyeglasses with the light nonchalance of the true nobility, Count Richard von Romanoff was arraigned in the Jefferson Market Police Court today and held in \$5,000 bail for examination on Tuesday next.

The "count" answered to-day to the name of Charles S. Speis, twenty-eight, a salesman. He has also signed check under the name of "R. P. Harris." He was arraigned on complaint of Mrs. Stella Ford, a concert singer, who accused him of stealing her \$350 diamond ring.

Investigation to-day tended to disclose the "count's" real name as Richard E. Werner, of Chicago. He has two brothers who are wealthy and said to be well-known in the Western city. Richard is the family black sheep, and is said to have been the cause of considerable anxiety to his relatives.

Twelve-twelve and Van Twelven, who captured the "count" on Wednesday after a thrilling automobile chase, have learned that he was a salesman. He was arraigned on complaint of Mrs. Stella Ford, a concert singer, who accused him of stealing her \$350 diamond ring.

He returned on La Providence on October 12, and has since been consistently turning his pockets into a mine of gold. In court to-day Werner was represented by Charles Fisher and O. J. Stogd, attorneys. Fisher stated that the "count" comes from one of the best families in Europe, and added that the "count" could prove that he is the son of a nobleman.

"He has an uncle right here in this city, who is worth more than \$10,000,000," said Stogd. "No, I can't give you the uncle's name."

De Seignior, the Metropolitan opera singer, said in his testimony that it was not true that he had introduced the "count" to a woman friend, who later lost \$2,000 worth of diamonds.

OFFER WITHOUT STRINGS
Tolman Willing to Surrender All to Get Pardon for Loan Shark King.
[Special to The Times-Dispatch.] New York, December 25.—"The offer we have made Governor Glynn in order to secure the pardon of Mr. Tolman, has absolutely no strings attached to it," declared Benjamin P. Spelman, attorney for the "loan shark king" David Tolman, upon his return from Albany to-day.

"We wish to make it plain to the people of the State that the Tolmans are willing to sacrifice every penny of outstanding obligations due to Tolman if the pardon is granted to the man. This total amount \$500,000, and will affect 22,000 people throughout the State."

Mr. Tolman himself was against this sacrifice. He was willing to cancel interests due him, but was opposed to permitting the borrowers retaining the principal. However, when he signed everything over to his son, he had to further way in the matter and the son and wife agreed to refund the big money loan to get him out of jail.

Piles Cured in 6 to 14 Days.
Druggists refund money if PAIN-OUTMENT does not cure itching, blind, bleeding or protruding piles. First application gives relief. Price, 25c.

SELLS OUTLINES HIS INDIAN PLANS

Wants to Recover Millions of Dollars Embezzled From Red Men.

INQUIRY SOON WILL START

If Program Is Carried Out, Sensational Prosecutions Will Result.

Washington, December 25.—Commissioner of Indian Affairs Cato Sells tonight outlined his program of bettering the conditions of Indians and recovering from embezzlers the millions of dollars the Red Men have lost to land sharks. The commission will leave Washington in a day or two to look into the relations of this government with the Indians of the West, who have been robbed and despoiled systematically for years. Here is his program:

1. A series of conferences with those in control of Indian affairs, at which the condition of the Indians will be investigated.

2. Criminal prosecution of those who have robbed the Red Men; the big offenders to be taken to the Federal House of the Attorney-General, the small offenders to be dealt with by local grand juries.

3. Compilation of facts for presentation to Congress, with a request for drastic legislation to safeguard the health and wealth of the Indians.

4. Discussion of plans for the control of the liquor traffic.

Sensational Prosecutions.
If Commissioner Sells carries out the program which he outlined to-night there will be the most sensational prosecutions on a wider scale and involving more money than has ever been known in the history of Indian prosecutions in the Department of Justice.

"The investigation, which I am to make, will be largely at Denver, Col., where I am to meet thirty special officers, and clerks, who will report on what they have done to suppress the liquor traffic, which is obviously at the root of a great deal of the misfortune attending the Indians," said the commissioner. "From there I will go to Muskogee, Okla., where I will have a general conference with the county judges of the tribes, and with a number of attorneys whom I will appoint. These latter are to look into the cases of numerous estates of the richest Indians in America, which have been dissipated and impoverished."

"We know of cases in which estates have been reduced to nothing, while before daylight, but the party did not leave the coach until nearly 8 o'clock. At that time Mayor Sauer boarded the train and welcomed Mr. Wilson and his party to the city."

President Wilson remarked to the Mayor: "I see that you have been having a storm here." "Yes," replied the Mayor, "but it was only to get things nicely washed up for your arrival."

After the President had introduced the Mayor to the other members of the party, they left the train and were driven to the "Winter White House" in automobiles.

As the automobiles sped through the streets the townspeople greeted the President with hearty cheers. Mr. Wilson in return doffed his hat and called "Merry Christmas to you all, 'Idols' and railroad officials have been notified."

Arrives Before Daylight.
The presidential train arrived here before daylight, but the party did not leave the coach until nearly 8 o'clock. At that time Mayor Sauer boarded the train and welcomed Mr. Wilson and his party to the city."

CHILLY WEATHER IN SUNNY SOUTH FOR PRESIDENT

(Continued From First Page.)

semilustrous plants give the foliage a green verdure which the winter has failed to discolored.

The President's home is a humble contrast to the many handsome homes which border the Gulf Coast, but is somewhat hidden by a cluster of trees. The President's program for his vacation is much the same as on his trip to Corral, N. H., the summer capital—golf in the morning, a motor ride in the afternoon and quiet evenings at home, with absolutely no social diversions or political callers.

The golf course is exactly thirteen miles away, a distance in keeping with the President's fondness for the number thirteen. A Presbyterian Church is not quite a half-mile away.

Miss Margaret Wilson, eldest daughter of the President, lost a costly gold watch shortly after arrival in Pass Christian to-day, and several secretaries are now hunting for it. The disappearance of the timepiece is surrounded in mystery, but Miss Wilson is inclined to believe she may have left it on the private car "Idols" and railroad officials have been notified.

DIVIDENDS PAID BY LOCAL BANKS TOTAL \$296,277

(Continued From First Page.)

new reserve act, according to President John T. Wilson, who said that the matter was already under consideration, and that the bank was in full sympathy with the new currency law. The Broad Street Bank, which has a capital of \$200,000, is conducted on a 6 per cent basis, paying semiannual dividends in February and August. It does not make the first of the year a dividend period. The directors have decided to pay dividends on the Federal reserve act. State banks not required to come in under that act, but the belief was expressed that as soon as the terms are fully understood, many of the larger State banks would apply for registry.

In Sympathy With New Law.
The Central National, organized about two years ago, will pay its third semiannual dividend of 1 1/2 per cent. The bank has a capital of \$350,000 and a surplus of \$100,000.

President Charles Hutzler stated that while no formal action had been taken, the bank was in full sympathy with the new law, and would comply with it as soon as the terms were understood.

President Oscar E. Parrish, of the Church Hill Bank, claims the banner mention in this dividend statement. His bank is scarcely more than a year old, but on Wednesday declared its first semiannual dividend of 1 per cent on the capital of \$150,000, making a payment to stockholders of \$3,000. Mr. Parrish stated that no action would be taken in regard to registration as a Federal reserve bank until the annual meeting of the stockholders on the second Tuesday in January. Personally he had no doubt that the bank would come in as a Federal reserve bank.

The Fidelity Loan and Savings Company, a new institution, with capital of \$100,000, attempted to dividend, but placed its earnings in the credit of the surplus for this year.

First National Heads List.
As usual, the First National leads the list of dividends, paying 4 per cent semiannually on its capital of \$2,000,000, its total payment to shareholders being \$120,000, or more than one-third of the total of all bank dividends. Its dividend is larger than that of any other four banks in the city.

Vice-President John M. Miller, Jr., said yesterday that the bank officials had only been able to get a copy of the final currency bill on Wednesday. No action had been taken, he said, in regard to registration as a Federal reserve bank. There was no doubt of the bank coming in, as soon as the formalities could be completed with the Federal Reserve Board.

Directors of the Main Street and Manchester National Banks have not acted in regard to a dividend at this time. It was stated yesterday by officials of the Main Street Bank that its capital of \$200,000, and the Manchester National of \$150,000.

President A. L. Adamson said that the Mechanics and Farmers Bank of South Richmond, which paid 5 per cent semiannual dividend on \$100,000, had taken no action as to the new currency law, but had the matter under consideration.

Cashier Julien H. Hill said that no action has been formally taken by the National State and City Bank in regard to the new currency law, but that the officers of the bank were gathering the necessary information in order that the matter may be acted upon shortly. The bank will pay a dividend of 3 1/2 per cent on its capital of \$1,000,000, the stock being on a 7 per cent basis.

Planters Accepts Currency Act.
The Planters National Bank declared a semiannual dividend of 10 per cent on its capital of \$200,000, making a distribution to shareholders of \$20,000. At a meeting held on Wednesday morning the directors of the Planters Bank took formal action agreeing to the terms of the new currency law, and instructing Cashier Richard H. Smith to make formal application for registration as soon as the necessary formalities can be completed with the Federal Reserve Board.

At the same meeting the directors voted as a Christmas gift to employees a bonus of 10 per cent of their yearly salary, each employee, this having been the most liberal Christmas distribution made by any bank in the city.

The Old Dominion Trust Company has been in active business less than a year, and its officers stated that there would be no dividend at this period. The business, it was stated, is growing, and a liberal dividend would be apart for the surplus and undivided profits in lieu of the dividend.

The Savings Bank of Richmond will pay its usual semiannual dividend of 6 per cent on its capital of \$200,000, making a distribution of \$12,000. The question of registration under the Federal reserve clause of the new currency law is under consideration, and will be voted on at the annual meeting in January.

The Union Bank, the stock of which is paying 18 per cent, announced its usual semiannual dividend of 9 per cent.

Earnings Go to Surplus.
The Richmond Bank and Trust Company, which is scarcely more than a year old, announced no dividend because of the requirement of the State law that banks of this class must accumulate a surplus of 10 per cent of the capital before making any distribution of profits to shareholders. President H. B. Pollard, Jr., said yesterday that the bank had earned 7 per cent net during the year, which amount had been set apart to the surplus. Mr. Pollard said he was very hopeful that it would be on a dividend-paying basis by the July dividend period.

The Richmond Trust and Savings Company is also a newly organized institution, having been in operation little more than a year. Secretary R. J. Williamson, Jr., said that the company had earned during the year approximately \$60,000 net, or 6 per cent on its capital of \$1,000,000, which amount would be added to the surplus and undivided profits. This bank is also subject to the trust company clause, requiring a surplus of 10 per cent before dividends are allowed.

The Merchants National Bank, the stock of which pays 20 per cent, announced its usual 10 per cent semiannual dividend on a capitalization of \$200,000. Cashier Thomas Branch McAdams said that no formal action had been taken to qualify as a reserve bank under the new currency law, but that officers would recommend that step at the annual meeting of the stockholders in January, and he had no doubt that the bank would register under the terms of the new law.

HOTEL NEARS COMPLETION

The Biltmore Will Be Formally Opened on New Year's Eve.

[Special to The Times-Dispatch.] New York, December 25.—Announcement was made to-night that the Biltmore Hotel, just completed at a cost of \$10,000,000, will be formally opened on New Year's Eve. The new hotel is the most magnificent that has been erected
